Softronic wins agreement regarding cloud-based ERP solution to Mitsubishi Logisnext Europe

Softronic has signed an agreement with Mitsubishi Logisnext Europe to replace their existing ERP Solution with Business Central, a Cloud-based ERP solution from Microsoft.

Mitsubishi Logisnext Europe is part of the Logisnext group, a leading global provider of innovative logistics and material handling solutions. Mitsubishi Logisnext Europe offers an extensive portfolio of material handling equipment, services and logistic solutions to keep providing its customers with solutions that embrace the complete lifetime of its products.

- We are grateful for the extended trust from Mitsubishi Logisnext Europe, allowing us not only to continue our existing collaborations but also to start the implementation of a centralized, cloud-based Microsoft Business Central ERP solution to drive efficiency by unified operations and enhance data visibility across several countries, says Mattias Flock, CEO at Softronic.

By standardizing workflows and leveraging real-time insights, Softronic will enable seamless collaboration, improved decision-making, and scalable growth to Mitsubishi Logisnext Europe.

- We selected Softronic as our implementation partner because of their proven track record on delivering ERP solutions on the Microsoft platform that meet the current needs of our business and can meet future challenges. Softronic knows how to manage risks that come with IT projects, especially when business-critical applications are involved, says Iñigo Gomariz, Chief Financial Officer at Mitsubishi Logisnext Europe.

Softronic is a certified Microsoft Solution Partner and has been working closely with Microsoft since the early 1990s.
